HOW IT WORKS:

- ◆ On the day, our team arrives around 8 hours prior to main service to make the magic happen! *(According to number of guests and menu)*
- ◆ We prepare the food on site using our mobile BBQs with exclusive design, using mesquite style charcoal for a unique smoky flavor, setting up a live cooking station that guests will be thrilled to watch – it's not just about food, it is about entertainment too!
- ◆ We are really self-sufficient, bringing all equipment we need to cook and serve the food on site – and we don't charge any extra for it! *(Open area required for cooking)*
- ◆ We set up a beautiful food station where guests will serve from – buffet tables dressed with linen, chafing dishes to keep the meat selection hot, beautiful bowls and baskets for salad. Also included are a cheese platter and bread selection, and all equipment to serve your food selection *(tables provided)*.
- ◆ Following main service we pack all equipment back in the truck and leave only great memories of delicious food and outstanding friendly service behind, so you don't have to lift a finger on your party but receive all the compliments!

Transportation fee applies depending on location.
